Bilateral Meetings

- Thursday 09:30 - 15:30

Description

Malaysian Institute of Pharmaceuticals and Nutraceuticals (IPharm) is established in 2006. The institutes aim to be a Biotechnology's Centers of Excellence by exploiting megadiversity of Malaysian natural resources for the development of new drugs. IPharm therefore has a mission to conduct world-class R&D to accelerate the discovery, development and commercialization of pharmaceutical and nutraceutical products. For years, IPharm has established its capacity by developing the infrastructure and human resource. An integrated multi-disciplinary drug discovery team and related technologies including molecular biology, medicinal chemistry synthesis, molecular modeling, automated high-throughput screening, animal pharmacology, pharmacokinetics, drug metabolism, and formulation studies have been develop during these years. For the coming years, IPharm will take steps to position as an integrated institute for applied research and development of new pharmaceuticals and nutraceuticals.

Organization Type

Joint venture, Loan, Participation in project

Organization Size

less than 2.5 mill €

Country

Malaysia

City

Penang, Block 5-A, Halaman Bukit Gambir, 11700 [Google map](#)

Areas of Activities

Healthcare and Pharmaceuticals
