

ASSECO SEE D.O.O.

<http://www.see.asseco.com>

Bilateral Meetings

- Thursday 09:30 - 15:30

Description

The group Asseco SEE is one of the largest operators in South-Eastern Europe in terms of revenue derived from sales of its software and services. We came into being as a result of the integration of the experience, knowledge and solutions of major segment leading IT companies operating in the region. Since the beginning our company is focused on developing & selling its own proprietary solutions.

Today ASEE Group operates mainly in the following segments of the information market:

- Banking software solutions and services including omnichannel solutions, integrated core banking systems based on the Oracle and Microsoft platforms as well as authentication security solutions, reporting systems for regulatory compliance and managerial information, as well as risk management systems.
- Payment industry solutions, services and outsourcing for non-financial and financial institutions, including eCommerce related solutions, mPayments, Processing as well as ATM and POS related services.
- System integration solutions and services for financial, industry, public administration telecommunication and utility sectors with the following business lines: development of IT infrastructure, implementations and support, ensuring continuity of business processes, automation of operations, and customized software development. The Systems Integration segment also presents a group of proprietary solutions of ASEE which, due to their profile, have not been classified to our banking or payment solutions.
