# **Sheep Farming**

**Dunya d.o.o. is a company whose main activity is the breeding of pure-blooded species of Romanov sheep originating in the Czech Republic.**

# Why invest in Romanov sheep

The best alternative in animal husbandry.

- High fertility
- Resistant to disease
- No special requirements for nutrition
- Big demand for this kind of meat on local market
- About 500 000 lambs are imported annually.
- Profitable potential

- Part of the farm already exists
- About a two hundred sheep are already here
- Best Czech genetics

A unique project
